

5.4.1

To maintain a healthy relation with Alma-mater, the initiation of our registered college Alumni Association is appreciable. Alumni meet is held once in a year, with twice meeting of executive committee. The Alumni participate and contribute to the development of the institution. The biggest returns from the alumni are the suggestions and the feedback they provide about the improvement in teaching learning processes. The alumni members are involved to deliver guest lectures and also as resource persons to conduct workshops and seminars on recent trends. They also share their professional experience and motivate the students. They share the current scenario of placements, expectations from industries and potential job opportunities in the emerging areas. Another area of alumni contribution includes donation of water cooler, books to library, motivation lectures, and technical talks. The alumni have contributed Rs. 7, 63,900 over a period of 6 years for utilization towards institutional development. The Alumni from various parts of the world enthusiastically participate in the alumni meet organized by the college. The alumni maintain a continued bond with the institution and timely support in student progression is highly appreciated. The departments seek the opinions from alumni on various departmental activities.

activities.
