NEURANEX

JAN-JUN 2025 (Vol-II)

Department of Computer Science and Engineering (AI&ML)

Jyothishmathi Institute of Technology & Science started its academic journey in 1997 with a quest to impart technical education to the rural youth. The commitment towards providing the highest quality of education through innovative teaching methods to its students has always brought laurels. Jyothishmathi Institute of Technology and Science (autonomous), Karimnagar, has signed a Memorandum of Understanding (MoU) with T-Hub, Talent Farm, TASK, Edunet Foundation, and SAP - Centre of Excellence in Hyderabad.

Program Educational Objectives (PEOs)

Fundamental Knowledge: Graduates will build a strong foundation in mathematics, computer science, and artificial intelligence principles to analyze, model, and solve complex problems in AI and Machine Learning. **Core Competencies:** Graduates will gain expertise in core areas of Artificial Intelligence and Machine Learning, enabling them to design and implement intelligent systems for real-world applications.

Breadth: Graduates will acquire interdisciplinary knowledge to integrate AI/ML solutions across various domains such as healthcare, finance, robotics, and smart environments, adapting to emerging technologies and global needs. **Professionalism:** Graduates will demonstrate ethical behavior, teamwork, leadership, and communication skills, contributing effectively in collaborative and multicultural work environments. **Learning Environment:** Graduates will pursue lifelong learning through higher education, industry certifications, and innovation-driven projects in a dynamic and inclusive learning environment that nurtures creativity and entrepreneurial thinking.

INSTITUTE VISION

To be a premier engineering institution striving continuously to deliver quality technical education, nurturing competent engineers capable of achieving global excellence with societal consciousness

INSTITUTE MISSION

- To embrace emerging teaching techniques that equip students to face technical challenges with confidence and competence.
- To cultivate a culture of innovative thinking that inspires students to develop creative solutions to real-world problems.
- To instil leadership qualities and foster an entrepreneurial mindset in students, enabling them to contribute positively to society.

DEPARTMENT VISION

To emerge as a center of excellence in Artificial Intelligence and Machine Learning, offering quality technical education that empowers future innovators to achieve global excellence and drive intelligent solutions for societal advancement

DEPARTMENT MISSION

- To provide quality education in AI and ML, equipping students with advanced computational skills to excel in a globally competitive environment.
- To foster a spirit of innovation and critical thinking, enabling students to develop practical solutions that benefit society.
- To promote strong collaborations with industry and academia, nurturing an entrepreneurial mindset and continuous professional growth in the field of AI and ML.

CROWNING ACHIEVEMENTS

We are thrilled to announce that Jyothishmathi Institute of Technology & Science (JITS), an autonomous institution, has secured NBA accreditation for its Computer Science and Engineering (CSE), Electronics and Communication Engineering (ECE), and Electrical and Electronics Engineering (EEE) departments for an extended period up to 2028. This renewed recognition by the National Board of Accreditation (NBA) underscores our unwavering commitment to academic excellence, quality assurance, and outcome-based education. The Chairman, Secretary, Principal, and Dean extend their heartfelt congratulations to all stakeholders, alumni, industry partners, parents, and well-wishers for their unwavering support in achieving this remarkable milestone.

TRAINING AND PLACEMENTS

PROUD PLACEMENT ACHIEVEMENT AT JITS

We are thrilled to announce that several of our talented students have been successfully placed at Infosys as System Engineers. This achievement is a testament to their hard work, dedication, and the comprehensive education provided at our institution. Infosys, recognized as a global leader in technology and consulting services, offers an excellent platform for our graduates to launch their professional careers. The System Engineer role, with a competitive compensation package of ₹3.6 LPA, is a significant milestone for any aspiring IT professional. We extend our heartfelt congratulations to these students and wish them continued success in their future endeavors. Your accomplishments make us proud and inspire your peers to strive for excellence. Keep reaching for the stars!

We are delighted to share yet another proud milestone as our talented students from Jyothishmathi Institute of Technology & Science (Autonomous) have secured placements with Cognizant under the NAAC Excellence category. Their dedication, skills, and determination continue to uphold the rich legacy of JITS, demonstrating the institute's commitment to academic excellence and professional success. We extend our heartfelt congratulations and wish them the very best for a bright and prosperous career ahead!

TRAINING AND PLACEMENTS

CELEBRATING OUR STELLAR PLACEMENTS

The Department of Computer Science takes immense pride in the remarkable placement achievements of our students for the academic year. With top-tier companies recognizing the talent nurtured at Jyothishmathi Group of Institutions, our students have secured positions in leading organizations across the tech spectrum. M. Ashritha led the way with an exceptional placement at NVIDIA, securing a package of 52 LPA, a true testament to her hard work and brilliance. Following closely are N. Jayanth with 19 LPA at Cadence, R. Rajkumar with 16.85 LPA at Qualcomm, and Ch. Lakshmi Sahithi with 12.3 LPA at Target. Several students have also made their mark in the Government Sector, showcasing the versatility and competitive edge of our graduates. With numerous other students placed in reputed companies with packages up to 3.0 LPA, this year's placements reflect not only individual excellence but also the strength of our academic ecosystem, training programs, and mentorship. These accomplishments stand as a proud moment for the department, inspiring future batches to aim higher and dream bigger.

We take immense pride in the remarkable achievements of our talented students, who continue to secure impressive opportunities with leading companies. Their consistent success stands as a testament to Jyothishmathi Institute of Technology & Science (Autonomous)'s unwavering commitment to academic excellence, skill-oriented training, and strong industry partnerships.

GUEST LECTURES

An informative session on higher education in the USA on 03/02/2025. Experts Kirthi Srivatsav from Grand Valley State University and Priya Kurle from Indiana University Indianapolis shared valuable insights on scholarships, SOP writing, and application strategies. They emphasized the benefits of STEM programs, OPT opportunities, and the importance of choosing cost-effective universities. The session also highlighted the growing presence of Telugu-speaking students in the US. Chairman Sri. J. Sagar Rao, Principal Dr. T. Anil Kumar, and faculty members were present.

A workshop on 'Career Guidance and Overseas Education' for B.Tech second and third-year students on February 5, 2025. Mr. Meneni Rohith Rao, CEO and Founder of Career Consultz, Hyderabad, served as the resource person. The workshop aimed to provide clarity and guidance to students in setting appropriate career expectations.

Mr. Rao emphasized the importance of IQ, EQ, personality traits, and psychometric assessments in making informed career decisions. He highlighted opportunities for free education in countries like Italy and Germany and encouraged students to explore global educational avenues.

The session also covered key aspects of IT, core engineering, and specialization-based job opportunities. An interactive segment allowed students to address queries related to career prospects and higher education abroad. Principal Dr. T. Anil Kumar and other faculty members were present during the session.

GUEST LECTURES

In collaboration with the Telangana Innovation Cell (TGIC), celebrated World Creativity and Innovation Day with enthusiasm. Over 200 engineering students participated, engaging in activities that fostered creativity and critical thinking. The event featured a keynote session by Mr. Aditya Nandagiri, Founder of Beyondx Informatics Analytics Pvt. Ltd., who inspired students to "Break Boundaries, Hack Ideas, Create Tomorrow." The celebration concluded with certificate distributions, leaving students motivated to pursue innovation in their academic and professional endeavors.

A Faculty Development Program on Cutting-Edge Technologies

JITS(Autonomous), Karimnagar, successfully conducted a one-week Faculty Development

Program (FDP) from May 26 to 31, 2025, on the theme "Recent Trends and Advancements in Computer Vision, Machine Learning, and Natural Language Processing." This enriching program aimed to equip faculty members with the latest skills in Machine Learning, Computer Vision, and Artificial Intelligence.

The inaugural session was graced by Prof. U.S.N. Raju, Associate Professor at NIT Warangal, who emphasized the growing importance of interdisciplinary research and encouraged faculty to keep pace with technological innovations. The initiative, guided by the visionary leadership of Sri. J. Sagar Rao, Chairman, and Sri. J. Sumith Sai, Secretary of the Jyothishmathi Group of Institutions, was strongly supported by Dr. T. Anil Kumar, Principal of JITS, and Dr. K. Vaishali, Dean of Academics. Dr. R. Jegadeesan, HoD CSE & Convener of the FDP, along with coordinators Dr. A. Manjula, Dr. N. Venkateswaran, and Dr. V. Neelima, Hod CSE(AI & ML) ensured the seamless execution of the event. The FDP featured expert lectures, hands-on sessions, and enthusiastic participation from faculty members across various institutions, making it a vibrant platform for knowledge exchange and academic collaboration.

GUEST LECTURES

The Department of Computer Science and Engineering at Jyothishmathi Institute of Technology and Science successfully organized a One Week Faculty Development Program (FDP) on “Recent Trends and Advancements in Machine Learning, Computer Vision, and Natural Language Processing”, conducted in offline mode from 26th May 2025 to 31st May 2025.

The program included 12 expert sessions, combining theoretical insights and practical applications. Over 50 faculty members from various institutions participated enthusiastically.

Key Topics Covered: Recent advancements and applications in Computer Vision, Introduction to LLMs and latest trends in NLP, Frameworks, tools, and real-time datasets for ML & NLP research, Hands-on sessions on ML algorithms and data-driven research, Discussion on ML and Deep Learning research problems

The Faculty Development Programme (FDP) provided an enriching experience for participants by focusing on recent advancements in Computer Vision, Large Language Models (LLMs), and the latest trends in Natural Language Processing (NLP). It covered essential topics such as frameworks, tools, and real-time datasets used in ML and NLP research, along with hands-on sessions on machine learning algorithms and data-driven research approaches. Renowned resource persons, Prof. U. S. N. Raju and Prof. Ilaiyah Kavati from the Department of Computer Science and Engineering, NIT Warangal, led the sessions with great insight. The FDP offered practical exposure using tools like Python, OpenCV, and various NLP toolkits, while also fostering research-oriented discussions on emerging challenges in ML and Deep Learning. Overall, the program enhanced the participants' skills in integrating modern AI technologies into teaching, research, and academic mentorship.

Jyothishmathi Institute of Technology and Science (Autonomous), Karimnagar, celebrated the 76th Republic Day with great patriotism and enthusiasm. The event began with the hoisting of the National Flag by Principal Dr. T. Anil Kumar. Chairman Sri. J. Sagar Rao garu addressed the gathering, urging students to enhance their technical skills for personal and national development. He also distributed track suits to NCC cadets and highlighted the importance of Republic Day. Winners of various cultural and technical events held on 24th and 25th January 2024 were felicitated with mementoes and certificates.

The annual intercollegiate sports meet, Sports Fiesta - 2025, was officially inaugurated at Jyothishmathi Institute of Technology and Science (JITS), an autonomous institution in Karimnagar, on February 20, 2025. The opening ceremony featured a ceremonial march past and was graced by JITS Principal Dr. T. Anil Kumar, JIPS Principal Dr. V. Raj Kumar, and Dean (Academics & Audit) Dr. P. K. Vaishali. Dr. Anil Kumar emphasized that sports play a vital role in nurturing leadership qualities, discipline, and physical fitness among students .

The Sports Fiesta, scheduled from February 20 to 28, includes a variety of competitions such as cricket, volleyball, throwball, table tennis (doubles), carroms (doubles), chess, and kho- kho. Participants will compete for trophies, certificates, and cash prizes across all events

INNOFEST 2025

During the inauguration of Innofest-2025 at Jyothishmathi Institute of Technology and Science (JITS), Karimnagar, on February 24, 2025, Professor RBV Subrahmanyam from NIT Warangal commended the institution's commitment to discipline and student development. He emphasized that JITS students are in "safe hands," highlighting the college's 27-year legacy of guiding students with structured mentorship and academic rigor to become responsible citizens. Professor Subrahmanyam also encouraged students to pursue innovative projects addressing societal challenges, assuring them of the management's support in gaining exposure at state, national, and international levels. Following his address, he inaugurated a Project Expo where students showcased a range of innovations, including smart home automation systems, solar-powered vehicles, IoT-based waste monitoring solutions, and human-following robots. He interacted with each participant, offering constructive feedback and motivating them to present their work at broader platforms.

The Jyothishmathi Group of Institutions celebrated its Annual Day, Utsav 2025, with great enthusiasm on April 19, 2025, at its Karimnagar campus. The event featured Chief Guest Sri Praful Desai, IAS, Additional Collector of Karimnagar, and Guest of Honor Prof. V. Kamakshi Prasad, Director of Research & Development at JNTU Hyderabad. Their addresses emphasized holistic education, innovation, and social responsibility.

JITS UTSTAV 2025

Principal Dr. T. Anil Kumar presented the Annual Report, highlighting the institution's academic achievements, placements, research output, and co-curricular excellence over the past year. Chairman Sri J. Sagar Rao shared his vision for the institution's future, reaffirming the management's commitment to continuous improvement in academic quality and infrastructure. Secretary & Correspondent Sri J. Sumith Sai extended his wishes to all attendees.

A key highlight of the evening was the Prize Distribution Ceremony, where winners of intercollegiate technical and sports competitions, as well as intracollegiate cultural contests, were felicitated with trophies, medals, and certificates. The celebrations concluded with vibrant cultural performances by students, showcasing their talents in music, dance, drama, and fashion

JITS NSS DONATES 119 UNITS OF BLOOD FOR THALASSEMIA PATIENTS

On World Blood Donor Day, June 13, 2025, JITS organized a blood donation camp in association with Prathima Institute of Medical Sciences, collecting 119 units of blood to support children with sickle cell anemia and thalassemia.

The event was inaugurated by Dr. Ch. Amit Kumar and supported by JITS Principal Dr. T. Anil Kumar, Dr. P. Pranitha, and Mr. G. Jagadeeshwar, reflecting the institute's strong commitment to community health.

In a heartfelt gesture of compassion and social responsibility, the NSS unit of JITS organized a blood donation camp and successfully collected 119 units of blood dedicated to supporting Thalassemia patients. The event stood as a shining example of humanity in action, where students, faculty, and volunteers came together with a shared purpose—to give the gift of life. Every drop donated was a symbol of hope, reinforcing JITS's unwavering commitment to community service and health awareness. This noble initiative not only saved lives but also inspired a spirit of empathy and civic duty among the youth.

FACULTY & STUDENT ACHIEVEMENTS

FACULTY ACHIEVEMENTS

Our faculty members have demonstrated their dedication to continuous learning by successfully completing prestigious NPTEL certification programs from Jan- Apr 2025. Dr. V. Neelima excelled in Natural Language Processing, while Dr. Pranitha enhanced her expertise through NBA Accreditation and Teaching and Learning in Engineering. G. Pranavi completed in compiler Design, Mr. Sridar and B. Kalyani both accomplished certifications in Cryptography and Network Security. These achievements reflect our faculty's commitment to academic excellence and upskilling in emerging domains

STUDENT ACHIEVEMENTS

Congratulations to Our Students for Winning 2nd Runner-up at Code Unnati Innovation Marathon! We are proud to announce that our students have secured the 2nd Runner-up position at the prestigious Code Unnati Innovation Marathon, held at TASK Headquarters, Hyderabad. Out of 450 participating teams, only 25 teams made it to the finals, and our students showcased their innovation and technical excellence to achieve this remarkable milestone.

Winning Team Members:

**Ajith Shanagonda (21271A0503) - IV-CSE A, Akshith Shanagonda (21271A6606) - IV-CSM A,
Mahender Lyagala (21271A0517) - IV-CSE A**

FACULTY & STUDENT ACHIEVEMENTS

Students from Jyothishmathi Institute of Technology and Science (JITS), Karimnagar, clinched first place at the National Level Hackathon held at COHORT, Hyderabad, on April 6, 2025. Their innovative project, AI Crop Care, offers an AI-powered solution for detecting crop diseases and promoting sustainable farming practices. The team—Ajith (IV Year, CSE A), Akshith (IV Year, CSM A), and Ramesh (IV Year, CSE C)—received a ₹10,000 cash prize, certificates, and event T-shirts for their outstanding performance. Notably, AI Crop Care has been selected as one of the top four winning teams during the evaluation at TASK Headquarters, conducted by ISF Founder JA Chowdary, opening up an incredible opportunity for an international trip to the USA as part of the ISF initiative.

In a proud academic milestone, HOD, CSE(AI&ML), **Dr. V. Neelima** has authored a remarkable book titled **"Securing the Digital Frontier"**, offering **deep insights into modern network security strategies** and the evolving landscape of cyber threats. The book serves as a valuable resource for students, researchers, and professionals navigating the complexities of digital defense mechanisms. Adding to the department's scholarly achievements, **Dr. P. Pranitha** has published an insightful book on **DevOps**, shedding light on the integration of development and operations for faster, efficient, and more reliable software delivery. Her work bridges academic theory with industry practices, making it a must-read for those aspiring to excel in the software engineering domain. Both publications reflect the dedication of our faculty towards academic excellence and their continued efforts to empower the next generation of tech leaders.

DEPARTMENTAL EVENTS

The initiative aims to equip students with entrepreneurial skills, guiding them from ideation to execution. Participants who maintain 100% attendance and successfully complete three online quizzes and two milestones will receive the Ignite Certificate from the Wadhwani Foundation. The program is overseen by an advisory board comprising R. Sridevi (Director, DEIS, JNTUH), Dr. T. Anil Kumar (Principal, JITS), Dr. P. K. Vaishali (Dean, Academics & Audit, JITS), and STARTUPS Coordinators Dr. A. Manjula and Dr. G. Srilatha (Associate Professors, JITS).

The AI-CLUB, operating under the esteemed Department of Computer Science and Engineering(AI&ML), successfully organized a two-day event titled "Hands-On Array Play & Data Craft" on 28th and 29th April 2025. This session was designed to provide students with practical exposure to one of the most fundamental data structures in programming – arrays – while also introducing creative methods to craft and manipulate data efficiently.

The AI-CLUB, has launched an exciting Logo Competition to ignite student creativity and artistic expression. This event offers a vibrant platform for participants to interpret and represent the club's identity, encouraging both individual innovation and collaborative idea sharing. By contributing to the club's visual identity, students deepen their engagement with the AI-CLUB's mission, celebrating the spirit of creativity, community, and technological excellence.

DEPARTMENTAL EVENTS

An online AI tools quiz is an engaging and informative way to assess participants' understanding of key artificial intelligence concepts and technologies. Covering topics such as machine learning, natural language processing, image recognition, and automation frameworks, the quiz offers a broad overview of AI tools and their applications. By providing up-to-date content, it supports continuous learning and keeps participants informed about the latest trends in this dynamic field. Serving as both an educational resource and a skills benchmark, the quiz helps individuals and organizations alike to enhance their knowledge and stay ahead in the world of AI.

The ISTE Student Chapter of our college serves as a dynamic platform for students to enhance their technical and professional skills. Through workshops, seminars, and competitions on emerging technologies like AI, IoT, and Data Science, the chapter fosters innovation and industry readiness. It actively encourages student participation, teamwork, and leadership, contributing to their holistic development.

TECHNICAL CONTENT

Deep Learning, a subfield of machine learning, leverages artificial neural networks with multiple layers to automatically learn complex patterns from massive amounts of data. Inspired by the structure and function of the human brain, deep learning architectures such as Convolutional Neural Networks (CNNs) and Recurrent Neural Networks (RNNs) have revolutionized fields including computer vision, natural language processing, and speech recognition. By enabling end-to-end feature learning without manual engineering, deep learning models have achieved unprecedented accuracy in tasks like image classification, language translation, and medical diagnosis. As computational resources continue to advance, deep learning is poised to drive the next wave of intelligent, autonomous systems, pushing the boundaries of what machines can achieve.

-AKSHITHA(IV CSM-B)

Prompt Engineering is an emerging discipline focused on designing effective instructions (prompts) to maximize the performance of large language models and generative AI systems. By carefully crafting the wording, context, and structure of prompts, engineers can steer models to produce more accurate, relevant, and safe outputs. This technique is critical in applications like conversational AI, code generation, and data analysis, where precision and clarity matter. As generative AI continues to evolve, prompt engineering is becoming a powerful skill, blending creativity with technical expertise to unlock the full potential of intelligent systems.

-Ganesh(III CSM-A)

Quantum Computing harnesses the principles of quantum mechanics to process information in fundamentally new ways. Unlike classical computers that use bits, quantum computers use quantum bits—or qubits—which can exist in multiple states simultaneously thanks to superposition and entanglement. This allows quantum systems to solve complex problems far beyond the reach of traditional machines, from cryptography and drug discovery to climate modeling and optimization. Although still in its early stages, quantum computing promises to revolutionize industries by delivering exponential speedups for certain computational tasks, paving the way for a transformative future.

-HARINI(IV CSM-B)

“Data science is like a teenage craze: everyone talks about it, nobody really knows how to do it, everyone thinks everyone else is doing it, so everyone claims they are doing it.” “Data science is like a teenage trend: widely discussed, poorly understood, and highly exaggerated.” -

A.ABHINAYA (IN CSM-A)

“Blockchain: solving problems you didn't know you had in ways you don't understand.” “Blockchain is like teenage rebellion — decentralized, hard to control, and everyone wants to join the hype.” -

B.HARINI (IV CSM-B)

“Artificial Intelligence is no match for natural stupidity.”

“AI: making mistakes faster and at scale.”

“The real question isn't whether machines think, but whether humans do.”

“Artificial Intelligence: because automating bad decisions is so much more efficient.” -

T.AKSHITHA (III CSM-B)

“I'm not lazy, I'm on energy-saving mode.”

“I could agree with you, but then we'd both be wrong.”

“My bed and I are perfect for each other, but my alarm clock keeps trying to break us up.”

“Common sense is like deodorant. The people who need it most never use it.”

“I'm on a seafood diet. I see food, and I eat it.” -

M.AKHIL (III CSM-A)

“Algorithms: turning coffee into code since forever.” “DAA: where you spend 5 hours designing and 5 seconds realizing it doesn't work.” “Divide and conquer — also known as how I handle exam panic.” “Greedy algorithms: because sometimes you just want the candy now.” “Dynamic Programming: saving subproblems like a hoarder saves old newspapers.” -

MD ARFANUDDIN (I CSM-A)

On The Streets

Finding glimpses of truths
now I seek truth in the lies..
Echoes of regrets and tears of sorrow
lend me a hand to stay on forever
Learning the tales,
where am said to be raised for who I am,
but never accepted for real..
Here, On the street of REGRETS
I console my own feelings
Which are heavier to lift..
Here, On the street of DEPTHS
I move with every dark step,
whose shadows are deeper than reality..
Here, On the streets of LOVE
I will chase myself,
And die in silence...
And like those little lights,
Are my hopes,
They are switched by others...

-Zunairaamber
111 csm-A

STUDENT INTERNSHIPS

Students are encouraged to undertake internships or industrial training at various industries during the summer break of their sixth semester, as approved by the HOD and Principal. The institute supports this initiative by granting permission for industry visits, enabling students to gain practical knowledge. The department facilitates these internships and industrial training programs, which last from one week up to a maximum of 30 days. These opportunities provide invaluable exposure to professional environments and industry practices, enhancing students' practical skills and preparing them for their future careers.

FINAL YEAR STUDENTS

"My journey through college was filled with unforgettable experiences that shaped who I am today. As a sports enthusiast and active participant in college events, I learned the value of teamwork, discipline, and perseverance. The encouragement I received from my mentors and the friendships I built gave me the confidence to push my limits both on and off the field. These memories and lessons continue to motivate me to aim higher and face every challenge with a positive spirit."

It is with immense pleasure that we unveil this edition of the Computer Science Department(AI&ML) magazine—a reflection of the creativity, innovation, and relentless pursuit of excellence by our students and faculty. This magazine captures the essence of our dynamic academic environment through insightful articles, breakthrough projects, and inspiring achievements. From cutting-edge research to real-world internship experiences, from hackathon triumphs to collaborative innovations, every page highlights the passion that drives our department forward. Step into the world of ideas, discovery, and inspiration as we celebrate the milestones and aspirations of our vibrant tech community.
